MATERIAL SAFETY DATA SHEET

VIVANTIS TECHNOLOGIES SDN BHD
REVONGEN CORPORATION CENTER

Document No.: MSDSrev05_PL2201
Date prepared: 10th January 2023 Reviewed: 10th January 2023

SECTION 1: CHEMICAL IDENTIFICATION

Catalogue Number: PL2201; PL2201-S; PL2202; PL2205; PL2205-S; PL2206; PL2202-K; PL2206-K; RTPL22; RTPL26

Product Name: MaxTaq DNA Polymerase; Chromo MaxTaq DNA Polymerase; DNA Amplification Kit (with Max*Taq* DNA Polymerase); DNA Amplification Kit (with Chromo Max*Taq* DNA Polymerase); Viva 2-step RT-PCR with M-MuLV RT/Max*Taq* DNA Polymerase; Viva 2-step RT-PCR with M-MuLV RT/Chromo Max*Taq* DNA Polymerase

Intended Use:
For research use only. Not for use in diagnostic procedures.

Company Headquarters:
Vivantis Technologies Sdn Bhd
Revongen Corporation Center
Level 17, Top Glove Tower,
No. 16, Persiaran Setia Dagang,
Setia Alam, Seksyen U13, 40170 Shah Alam,
Selangor Darul Ehsan, Malaysia.
Tel: +6 03 3359 1166
Fax: +6 03 3358 0303
Email: info@vivantechnologies.com
Website: www.vivantechnologies.com

Company Manufacturing:
Vivantis Technologies Sdn Bhd
Production Lab
Level 1, Enterprise 2,
Technology Park Malaysia,
Lebuhraya Puchong-Sg. Besi,
57000 Bukit Jalil,
Kuala Lumpur, Malaysia.

SECTION 2: COMPOSITION/INFORMATION ON INGREDIENT

Chemical Name	CAS No.	%
Taq DNA Polymerase Glycerol	56-81-5	≤30
10X ViBuffer A / 10X ViBuffer S Magnesium Chloride Potassium Chloride Tris Triton X-100	 7791-18-6 7440-09-7 77-86-1 9002-93-1	 ≤1 <10 <1 <1
50mM $MgCl_2$ Magnesium Chloride	7791-18-6	0.1-1.0

SECTION 3: HAZARDS IDENTIFICATION

Classification of the substance or mixture

Not classified.

Taq DNA Polymerase	Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 30 - 60%
10X *Taq* Polymerase Buffer	Percentage of the mixture consisting of ingredient(s) of unknown dermal toxicity: 1-10% Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 1-10% Percentage of the mixture consisting of ingredient(s) of unknown oral toxicity: 1-10%
10X *Taq* Polymerase Buffer	Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 1.6%

GHS label elements, including precautionary statements

Signal word:

Taq DNA Polymerase No signal word

Taq Polymerase Buffer No signal word

Pairing Nature with Scientific Discoveries

info@vivantechnologies.com

www.vivantechnologies.com

Vivantis Technologies

Hazard statements

Taq DNA Polymerase	No known significant effects or critical hazards.
Taq Polymerase Buffer	No known significant effects or critical hazards.

Precautionary statements

Taq DNA Polymerase & *Taq* Polymerase Buffer

Prevention:	Not applicable
Response:	Not applicable
Storage:	Not applicable
Disposal:	Not applicable
Supplemental label elements:	Not applicable

SECTION 4: FIRST-AID MEASURES

In case of eye contact, immediately flush with copious amounts of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

In case of skin contact, immediately wash with copious amounts of water. Get medical attention if symptoms occur.

In case of inhalation, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

In case of ingestion, wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Notes to physician:

Taq DNA Polymerase	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
10X *Taq* Polymerase Buffer	In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
Pfu DNA Polymerase	Acute and delayed dizziness.

Protection of first-aiders:

No action shall be taken involving any personal risk or without suitable training.

www.vivantechnologies.com

Vivantis Technologies

SECTION 5: FIRE FIGHTING MEASURES

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Use carbon dioxide, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and fully protective gear.

For special firefighting procedures, wear self-contained breathing apparatus for firefighting if necessary.

Hazardous decomposition products formed under fire conditions:

Taq DNA Polymerase	Carbon dioxide, carbon monoxide.
Taq Polymerase Buffer	Carbon dioxide, carbon monoxide, nitrogen oxides, halogenated compounds, metal oxide/oxides.

Flash point:	No data available.
Explosion data – sensitivity to mechanical impact:	No data available.
Explosion data – sensitivity to static discharge:	No data available.

Specific hazards arising from the chemical:

Taq DNA Polymerase	In a fire or if heated, a pressure increase will occur, and the container may burst.
Taq Polymerase Buffer	In a fire or if heated, a pressure increase will occur, and the container may burst.

SECTION 6: ACCIDENTAL RELEASE MEASURES

For personal precautions, no action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment

For cleaning up, stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

For environmental precautions, avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

SECTION 7: HANDLING AND STORAGE

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials, food and drink.
Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers.
Use appropriate containment to avoid environmental contamination.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Components	Country	Control parameters
Taq DNA Polymerase (Glycerol)	Australia	TWA: 10 mg/m3 8 hours

Eye/Face protection	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Use engineering measures such as general ventilation to control worker exposure to airborne contaminants.

For environmental exposure controls, emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Colorless (PL2201, PL2201-S; PL2202); Purple (PL2205, PL2205-S; PL2206)
Physical state:	Liquid
Odor:	Not available
Odor threshold:	Not available
Density:	Not available
pH:	pH8
Melting point:	Not available
Freezing point:	Not available
Initial Boiling point:	100ºC
Boiling point:	Not available
Flash point:	No data available
Ignition temperature:	400 ºC
Autoignition temperature:	Product is not self-igniting
Decomposition temperature:	No information available
Upper Flammability limit in air:	No data available
Lower Flammability limit in air:	No data available
Explosive properties:	Product does not present an explosion hazard.
Lower explosion limit:	0.9 Vol %
Upper explosion limit:	0.0 Vol %
Oxidizing properties:	No information available
Solubility:	Soluble in cold water and hot water (Taq DNA Polymerase); easily soluble in cold water and hot water (10X Taq Polymerase Buffer); Not miscible or difficult to mix with water (Pfu DNA Polymerase)
Partition coefficient (n-octanol/water):	No data available
Vapor pressure:	0.1 hPa at 20ºC
Vapor density:	Not determined
Evaporation rate:	Not determined
Specific gravity:	No data available
Viscosity:	Not determined

SECTION 10: STABILITY AND REACTIVITY

Stable under recommended storage conditions.

Materials to avoid:	May react or be incompatible with oxidizing materials.
Hazardous decomposition products:	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Hazardous polymerization:	No data available.
Conditions to avoid:	No specific data.

SECTION 11: TOXICOLOGICAL INFORMATION

Acute toxicity

Taq DNA Polymerase (Glycerol)

Oral LD50:	Rat – 12600 mg/kg
Inhalation LC50:	No data available
Dermal LD50:	No data available
Skin irritation:	Rabbit – Mild – 500 mg – 24 hrs
Eye irritation:	Rabbit – Mild – 500 mg – 24 hrs
Respiratory or skin sensitization:	No sensitizing effects known
Mutagenicity:	No data available
Reproductive toxicity:	No data available
Teratogenicity:	No data available
Aspiration hazard:	No data available
Synergistic effects:	No data available
STOT – single exposure:	No data available
STOT – repeated exposure:	No data available
Carcinogenicity:	No data available
Likely routes of exposure:	Oral, dermal, inhalation.

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation	No specific data.
Skin contact	No specific data.
Eyes contact	No specific data.
Ingestion	No specific data.

Chronic toxicity

No known significant effects or critical hazards.

To the best of our knowledge, the chemical, physical and toxicological properties have not been thoroughly investigated.

Vivantis Technologies

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity

Taq DNA Polymerase (Glycerol)

LC50: Fish – Oncorhynchus mykiss – 54000 mg/L – 96 hrs

Partition coefficient	Unit
-1.76	Log P_{ow}

Persistence and degradability:	Not available
Bioaccumulative potential:	Low
Mobility in soil:	Not available
Other adverse effects:	No known significant effects or critical hazards.

SECTION 13: DISPOSAL CONSIDERATIONS

Dispose waste material in accordance with federal, state and local environmental regulations.
Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.
Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
For waste packaging, recycle otherwise landfill or incineration if recycling is not feasible.
Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: TRANSPORT INFORMATION

ADG

Not regulated.

IMDG

Not regulated.

IATA

Not regulated.

Special precautions for user

Transport within user's premises: Always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of Marpol and the IBC Code

Not available

Vivantis Technologies

SECTION 15: REGULATORY INFORMATION

Standard Uniform Schedule of medicine and Poisons

Not regulated.

Model Work Health and Safety Regulations – Scheduled Substances

No listed substance.

International regulations

Chemical Weapon Convention List Schedule I, II & III Chemicals

Not listed.

Montreal Protocol (Annexes A, B, C, E)

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

Directive 2012/18/EU

Named dangerous substances - ANNEX I None of the ingredients is listed.

National regulations

Water hazard class:	Water hazard class 1 (Self-assessment): slightly hazardous for water.
Chemical safety assessment:	A Chemical Safety Assessment has not been carried out.

Inventory list

Australia:	All components are listed or exempted.
Canada:	All components are listed or exempted.
China:	All components are listed or exempted.
Europe:	All components are listed or exempted.
Japan:	Japan inventory (ENCS): Not determined. Japan inventory (ISHL): Not determined.
Malaysia:	Not determined.
New Zealand:	All components are listed or exempted.
Philippines:	All components are listed or exempted.
Republic of Korea:	Not determined.
Taiwan:	All components are listed or exempted.
Thailand:	Not determined.
Turkey:	Not determined.
United States:	All components are listed or exempted.
Viet Nam:	Not determined.

SECTION 16: OTHER INFORMATION

The information contained in this MSDS relates only to the material(s) designed and does not relate to use(s) in combination with any other material, process(es) and /or chemical reaction(s). Vivantis Technologies Sdn. Bhd. provides this information in good faith, from sources believed to be accurate; however, Vivantis assumes no liability for its accuracy or completeness, and thus shall not be held liable for any damage resulting from handling or from contact with the above product.

All Vivantis products are supplied for manufacturing, research and laboratory use only. Researchers and laboratory personnel intending to use any of these products for medical investigation on human are solely responsible for such use and for compliance with the pertinent regulations of the United States Food & Drug Administration (US-FDA) and other regulations. We do not assume liability for damages resulting from the handling, use and/or disposal of these products, from their use in violation of patent or other rights or reliance upon this information.
